## HISTORY

*Color Photo with permission of the National Park Service.*

### Founding of the Nation

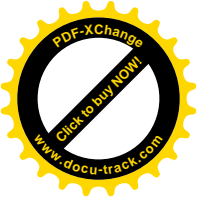

The three ships: Susan Constant, Godspeed, and Discovery brought the initial colonists to Jamestowne on May 13, 1607. This picture shows the ships anchored close to the shore while the colonists were building a defensive fort

The Society recently received permission to publish a [new commemorative painting](#) of the voyage of the three ships created by Mike Haywood in England. You can view his catalogue of marine paintings at <http://www.mikehaywoodart.co.uk/>
